I founded a sports and cultural association that was the first to promote the longboard skate culture in Lanzarote. We organized sponsored events throughout the island, created numerous videos, winning the Audience Prize at the Skate Film Festival 2012 in Madrid. I also served as a judge at the Longboard Dancing World Championship in Berlin in 2013.

# MY BIOGRAPHY

It has been a journey to become the person and the professional I am today, a relentless struggle against mental restraints.

Getting out of my comfort zone wasn't easy, last time I touched it again, I thought it was a set back, but it was just what I needed to make the definitive jump to become the myself of today.

I have put a lot of hard work, persistence, late nights, I have survived to rejections, doubts, failures, it cost me sacrifices, I have invested all my energy with discipline, I have put effort in checking my mindset and thoughts constantly, and I made it.
